ORDER:

The Engineer-in-Chief (Irrigation), Water Resources Department, Vijayawada in his letter 4th read above has submitted an estimate for according Administrative Approval for the work "Protecting the most vulnerable, eroded and slipped river margin by providing pitching in between Km.9.00 to Km.11.000 of PIP Flood Bank in Ramalayampeta H/o Yedurlanka Village in I.Polavaram Mandal in East Godavari District" for an amount of Rs.79,49,00,000/-, under the Head of Account "4711-01-FC- MH 103-Civil Works -GH (11) Normal State Plan-SH (05) Embankments 530 Major Works -531 other Expenditure". He has stated that during flood time, the Gowthami River and Vridha Gowthami River are directly hitting the marginal lands and flood banks at different chainages on Gowthami Right Flood Bank and PIP Flood Bank. Due to this direct hitting, the marginal lands are being eroded and slipping into the River Godavari. Due to tidal action as well, the lands are eroding. This erosion is causing heavy damage to both the flood banks. He has stated that, unless these high margin lands are protected with necessary formation of stone pitching immediately, there is possibility of these high margin lands getting disappeared and merged into the river and thereby the erosion may come upto the flood bank. He has therefore requested to accord necessary administrative approval for the above work at an early date.
